

CONTENTS

Executive Summary	1
<hr/>	
Chapter 1. Development at Risk	9
<hr/>	
Natural Disaster as a Cause and Product of Failed Development	9
Outline of the Report	10
Disaster Losses are Increasing	11
Economic Loss as an Indicator of Disaster Impact	13
Human Loss as an Indicator of Disaster Impact	13
Disaster Risk and The Millennium Development Goals: A Framework for Action	15
A Changing Debate: Bringing Disaster and Development Together	17
Is Sustainable Human Development Achievable under Natural Disaster Risk?	19
Disaster Development Linkages	19
How Can Development Planning Incorporate Disaster Risk?	25
Final Discussion	27
Chapter 2. International Patterns of Risk	29
<hr/>	
Global Risk Factors: The Disaster Risk Index	30
What is the DRI?	30
The Conceptual Model	30
The Development of the DRI	32
Limitations to the DRI	32
Hazard Specific Risk Profiles	34
Earthquake Hazard	34
Tropical Cyclone Hazard	36
Flood Hazard	40

Unpacking Global Risks	42
Risk Patterns at the National and Local Levels	44
Future Directions in Natural Disaster Risk Modelling	46
Can Drought Risk be Modelled?	46
Towards A Multi-Hazard Disaster Risk Model	49
Improving Disaster Indicators	51
Improving Disaster Data	51
Enhancing the DRI	52
Developing a Disaster Risk Reduction Indicator	53
The Development of National Level DRIs	54
Chapter 3. Development: Working to Reduce Risk?	57
Risk Factors	58
Urbanisation	58
Rural Livelihoods	66
Cross-Cutting Themes in Disaster-Development	72
Violence and Armed Conflict	72
Changing Epidemiologies	73
Governance	75
Social Capital and Civil Society	80
How Can Integrating Disaster Risk Reduction and Development Planning Help to Meet the MDGs?	82
Chapter 4. Conclusions and Recommendations	87
Development and Disaster Risk	87
How Are Disaster Risks and Human Vulnerability to Natural Hazards Distributed Globally between Countries?	87
What Are the Development Factors and Underlying Processes that Configure Disaster Risks and What Are the Linkages Between Disaster Risk and Development?	88
Recommendations	89
Governance for Risk Management	89
Mainstreaming Disaster Risk into Development Planning	90
Integrated Climate Risk Management	91
Managing the Multifaceted Nature of Risk	91
Compensatory Risk Management	92
Gaps in Knowledge for Disaster Risk Assessment	92
Technical Annex	97
Bibliography	119
Appendix: International Initiatives at Modelling Risk	131
Glossary of Terms	135
Statistical Annex: Disaster Risk Index Tables	137

Boxes

1.1	The Economic Impact of Disasters	12
1.2	The Millennium Development Goals and Disaster Risk Reduction	16
1.3	The Evolution of Natural Disaster as a Development Concern	18
1.4	Mahbub ul Haq on the Meaning of Human Development	19
1.5	Disaster Risk, Human Development and the MDGs	19
1.6	Governance and Disaster Risk	24
2.1	Development Status and Disaster Impact	31
2.2	National Disaster Databases	33
2.3	Mitch: One Disaster or Many?	44
2.4	Tracking Risk through Time Highlights the Importance of Context and Culture	45
2.5	Defining and Mapping Global Drought Hazard	47
2.6	Towards a Multi-tiered System of Disaster Reporting	52
2.7	GLIDE – The Unique Global Disaster Identifier	52
2.8	The Economic Commission for Latin America and the Caribbean	53
2.9	A Framework to Guide and Monitor Disaster Risk Reduction	54
3.1	Earthquake Hazard and Dwelling Construction Standards: Algeria and Turkey	59
3.2	Community Participation and the Urban Environment in Rufisque (Senegal)	60
3.3	The Hurricane Resistant Home Improvement and Insurance Programme for Informal Housing in the Caribbean	62
3.4	The Luanda-Sul Self-financed Urban Infrastructure Programme, Angola	63
3.5	Urban Governance for Urban Disaster Risk Management, Manizales (Colombia)	63
3.6	World Bank and Governance: Poverty Reduction Strategy Papers	65
3.7	Micro-finance for Disaster Risk Management in Bangladesh	67
3.8	Can Fair Trade Reduce Risk?	68
3.9	From Regional Vulnerability to Vulnerable People: Changing Conceptualisations of Rural Vulnerability in Ethiopia	69
3.10	Climate Change and Disasters: Towards an Integrated Climate Risk Management	70
3.11	Small Island States: Vulnerability and Climate Change	71
3.12	Disaster Risk and Armed Violence in Colombia	73
3.13	AIDS and Drought in Southern Africa	74
3.14	The State and Disaster Prevention: Cuba	76
3.15	Decentralised Disaster Risk Planning: Haiti	77
3.16	The Relevance of Governance: Evidence from Zimbabwe	78
3.17	Legislation can Enable Disaster Sensitive Development	79
3.18	The Role of Regional Organisations and Networks in Strengthening Capacities for Disaster Reduction	80
3.19	International Social Capital	80
3.20	The Erosion of Social Capital and Disaster Risk in Mongolia	81

Figures

1.1	Economic Losses Due to Natural Disaster, 1950-2000	13
1.2	Total Amount of Disaster Damage, 1991-2000	13
1.3	Total Regional Mortality, Earthquakes, 1990-1999	14
1.4	Total Regional Mortality, Floods, 1990-1999	14
1.5	Total Regional Mortality, Tropical Cyclones, 1990-1999	14
1.6	Total Regional Mortality, Droughts, 1980-2000	14
2.1	Development Status and Disaster Deaths	31
2.2	People Killed by Earthquakes, 1980-2000	34
2.3	Physical Exposure to Earthquakes, 1980-2000	35
2.4	Relative Vulnerability for Earthquakes	35
2.5	Physical Exposure and Relative Vulnerability to Earthquakes, 1980-2000	36
2.6	People Killed by Tropical Cyclones, 1980-2000	37
2.7	Physical Exposure to Tropical Cyclones, 1980-2000	37
2.8	Relative Vulnerability for Tropical Cyclones, 1980-2000	38
2.9	Relative Vulnerability for Tropical Cyclones in Small Islands	38
2.10	Physical Exposure and Relative Vulnerability for Tropical Cyclones, 1980-2000	39
2.11	People Killed by Floods, 1980-2000	40
2.12	Physical Exposure to Floods, 1980-2000	40
2.13	Relative Vulnerability for Floods	41
2.14	Physical Exposure and Relative Vulnerability to Floods, 1980-2000	42
2.15	Number of Houses Destroyed by Hurricane Mitch in Honduras – Global Observation and National Resolution	44
2.16	Number of Houses Destroyed by Hurricane Mitch in Honduras – National Observation and Departmental Resolution	44
2.17	Number of Houses Destroyed by Hurricane Mitch in Honduras – National Observation and Municipal Resolution	44
2.18	Number of Deaths Reported Due to Different Disaster Events in Orissa	45
2.19	Number of Houses Destroyed Due to Various Disasters in Orissa	45
2.20	Number of Houses Destroyed by Fire in Orissa, 1970-2002	45
2.21	Number of Fire Incidents for City of Cape Town Municipality, 1990-2002	46
2.22	People Killed by Drought and Famine, 1980-2000	47
2.23	Physical Exposure to Droughts, 1980-2000	48
2.24	Relative Vulnerability for Droughts	48
2.25	Physical Exposure and Relative Vulnerability to Droughts, 1980-2000	50
2.26	Difference between Observed and Model Classes	51
